

GSMC PRESENTS A FREE HYBRID PROGRAM

ONLINE AND IN-PERSON AT THE GSMC LIBRARY 9370 E WASHINGTON STREET, INDIANAPOLIS, IN 46229

Dating and Preserving Family Photos

Many of us are overwhelmed by boxes of unidentified photographs or discs of digital images. Learn how to identify and care for your photos. Joan will discuss how to examine and interpret historic photographs, reviewing processes and formats from the daguerreotype to digital. She will also explore internal dating clues, such as clothing, hairstyles, automobiles, props, photographers' logos, and even ear shapes. Participants are encouraged to bring interesting photographs for a show and tell.
